

# Missouri Wilderness Coalition

Lower Rock Creek Hike

Sunday October 19, 2008

## LOWER ROCK CREEK HIKE THIS SUNDAY - OCTOBER 19 at 8:00am

**Members of Missouri Wilderness Coalition and Ozark Trail Association** are leading a hike into the Lower Rock Creek Proposed Wilderness this Sunday, and we hope some of you can join us as we explore some lesser-visited pieces of this incredible area including Blue, Smith, and Trackler Mountains.

This is a "bushwhacking" trip through the interior of the St. Francois Mountains from County Road 518 (near Silver Mines) to CR-514 (near the Highway E crossing of the St. Francis River). This area is part of the proposed federal wilderness and this trip is an opportunity to get a firsthand look at the features that have lead proponents to support wilderness designation.

**This trip is strenuous and involves walking cross-country through steep wooded hillsides with no trails. This trip is not suitable for beginner hikers, children and anyone not in excellent physical condition.**

To sign up, please visit the Ozark Trail Association's website:  
<http://www.ozarktrail.com/workpartysignup.php?OutingId=303>  
Signups will be contacted directly to arrange carpooling.

Thanks, and we hope to see you on Sunday. The fall colors should be GREAT!
